

*The Missing Half of  
Conservatory Comfort*

HIGH PERFORMANCE **SIDE GLAZING** FOR  
**CONSERVATORIES AND GLAZED EXTENSIONS**

-  High-performance solar control
-  Minimal tint
-  Excellent transparency
-  6mm toughened glass safety

Most conservatory upgrades focus on the roof.  
But side glazing plays an equally important role in  
controlling heat, glare and energy efficiency.

Ambi-Clarity has been developed to complement the  
Ambience roof glass range and help create a more  
balanced indoor environment throughout the year.

Ask us about the complete Ambience glazing package.  
Roof glass + side glazing = total comfort
